

## CRIME BY YEAR & LOCATION

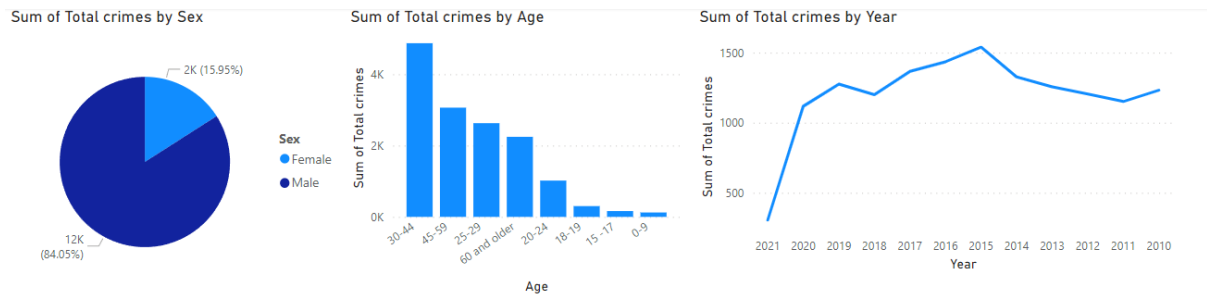

### 1. Types of crime:

- 1.1. Thefts, damages, cyber frauds, and other crimes are the most prevalent in Italy through the years.
- 1.2. North-west Italy is the region representing maximum number of crimes.
- 1.3. Lombardia, Lazio and Roma, Milano and Campania are the top 5 cities that recorded the most crime.
- 1.4. There was a drop in crime levels significantly from 2019 to 2020. But there was a steep increase post-2020, i.e after covid lockdowns.

### 2. Crimes by age, sex:

- 2.1. It is evident that males comprise the maximum victims in the age range of 30-44.
- 2.2. Females aged above 60 are the maximum victims of crimes.
- 2.3. Crimes by year data is partial, but it is clear corroborating the previous insights that crime went down in 2020.

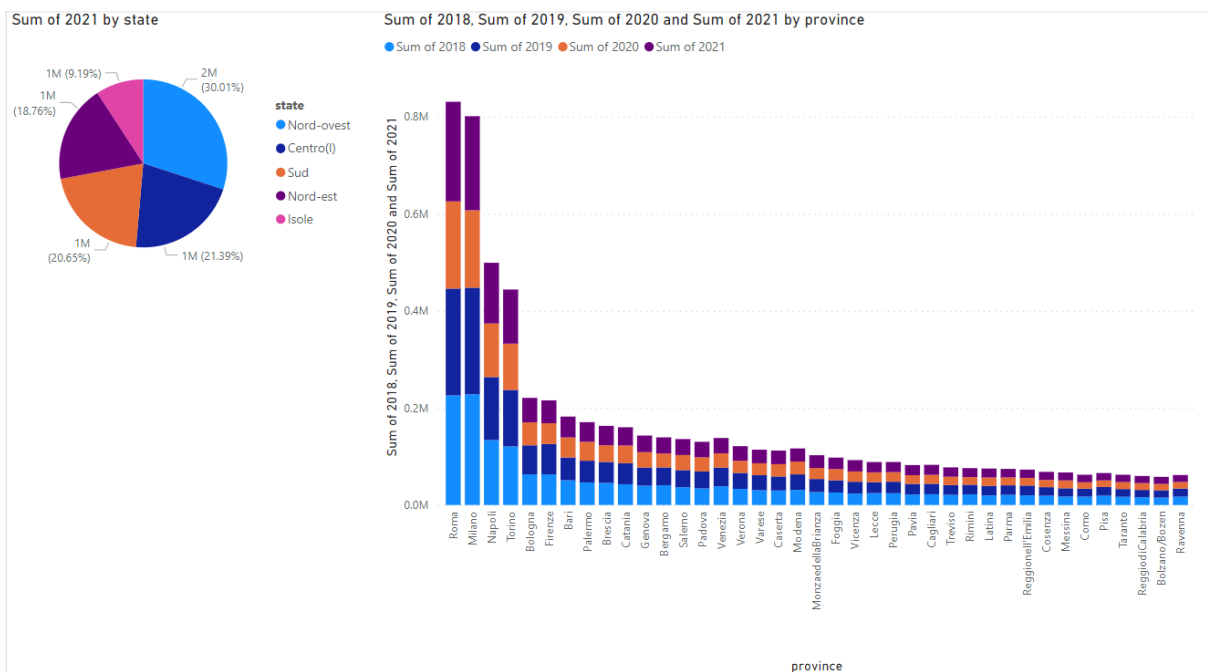

Data seems partial

### 3. Crime by province, region, and year.

3.1. Data corroborates that North-west has the most crime.

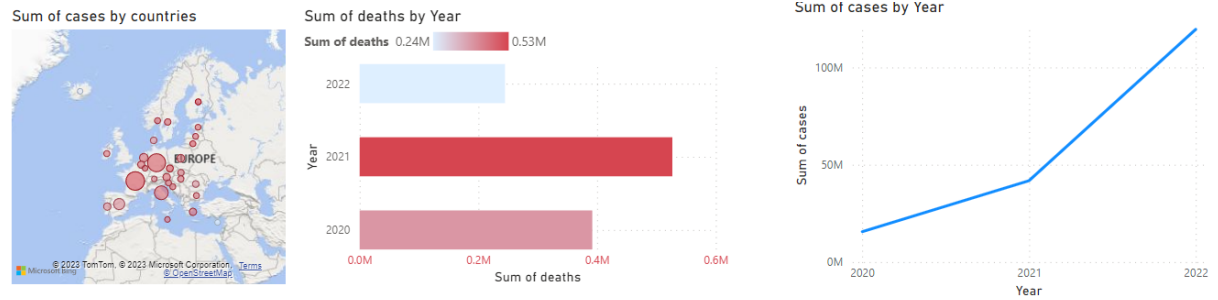

3.2. Roma, Milano, and Napoli are the top 3 provinces with most crimes.

### 4. Covid cases and deaths

4.1. Covid cases increased significantly from 2020 to 2022.

4.2. Though cases were highest in 2022, the deaths were much less as compared to 2021. Potentially, because of vaccination.

## 5. Unemployment by Region

5.1. Females are more unemployed in Italy in comparison to men.

5.2. Southern and Central Italy show highest unemployment numbers.

5.3. Calabria, Campania, and Sicilia are the top 3 provinces with most unemployment.

5.4. Unemployment decreased from 2019-2022.
